CoverJock – **Start a new session**

Would you like to know how to create a new session.
We will show you in three easy steps.

1

What you do

Open CoverJock from the desktop.

In the top right hand corner of the first window, you will see and green button with the CoverJock logo.

Click this button.

2

Quick start up wizard

The next step is to run through a quick wizard asking the following questions:

1. Which dancers are working?
2. What music to play?
3. When last orders and closing time is?

3

Start Playing Music

The main CoverJock screen loads all the information selected in the wizard.

At the bottom of the screen, there is a panel of buttons, simply click the green **PLAY** button.
